Computer Software Specialist

Jonesville, VA 

Dear Hiring Manager,

I am writing to express my interest in the position available at your company. As a recent graduate of Mountain Empire Community College with a 4.0 GPA in Computer Software, I believe that I have the skills and knowledge necessary to succeed in this role.

Growing up in a small town in Southwest Virginia, I have always been fascinated with learning about modern technologies. My passion for technology led me to pursue an education in computer software, and I have gained a lot of experience and knowledge from my coursework.

In addition to my education, I have gained valuable experience in the workforce. As a stocker at Food City #895, I have developed effective communication skills and the ability to support a steady workflow. During my summer job at Western Building Supply, I installed a security system and gained experience working with various technologies.

I am confident that my skills and experience make me a strong candidate for this position. As someone who is always straight to the point, I believe that I can contribute to a healthy work environment and support a positive workplace culture.

Thank you for considering my application. I look forward to discussing my qualifications with you further.

Sincerely,

Trevor Fee
